

**THE CITY OF LIVERMORE IS ACCEPTING
APPLICATIONS FOR
PLAN CHECK ENGINEER**

\$122,565 - \$128,577 - \$134,890 - \$141,518 - \$148,478/per year

Plus an excellent benefits package!

THE POSITION

The City of Livermore is excited to announce the recruitment to fill our Plan Check Engineer vacancy. Under general supervision, the Plan Check Engineer performs independent building and plan examinations for construction or alteration of industrial, commercial, and residential structures; determines compliance with applicable codes, laws, and regulations; and performs other duties as assigned.

Examples of duties include:

- Checks plans, specifications, and calculations on building plans submitted by architects, engineers, contractors, and owners for compliance with structural design, zoning, grading, soil reports, energy standards, disabled access, and general conformity to applicable ordinances, laws and State building codes.
- Advises building inspectors on structural and other building related problems arising in the field during construction.
- Assists customers in person and over the phone answering questions and providing instructions to architects, engineers, contractors, homeowners, other customers, and staff regarding building requirements, structural application of various codes, and requirements to achieve compliance standards.

APPLICATION & TESTING PROCESS

Apply online at www.LivermoreCA.gov/jobs to be considered for this position. Interested applicants should apply early as the recruitment may close at any time. First review of applications will begin on January 29, 2024.

Application materials will be reviewed to determine the best qualified candidates to participate in an interview process. The results from the interview will be used to establish the Eligible List. The Eligible List created will be effective for one year and may be extended if needed.

GENERAL INFORMATION

Work periods and work days are subject to change dependent upon the operational requirements of the City. Appointment to City employment is contingent upon passing a fingerprint criminal background check. At time of hire, proof of United States citizenship or authorization to work in the United States must be presented. The probationary period for this position is at least 12 months.

The City of Livermore is an equal opportunity employer and supports workforce diversity.

HOW TO APPLY

OUR LIVERMORE COMMUNITY

Located in the Tri-Valley Region approximately 50 miles east of San Francisco with a diverse population of 91,000+ residents, Livermore is uniquely situated as the easternmost city in Alameda County and is the gateway to the Central Valley. Encompassing 26.44 square miles and founded in 1869, Livermore is one of California's oldest wine regions and the City is framed by beautiful vineyards and open space. Its unique cultural identity blends elements of western heritage, viticulture, and open space with science and innovation. Quality of life is a fundamental part of the active Livermore lifestyle.

THE IDEAL CANDIDATE

The ideal candidate will possess the following knowledge, skills, abilities, and characteristics:

- Outstanding knowledge of principles and practices of structural engineering including the strength, properties, and uses of materials in building construction.
- Accurately read and interpret building plans, specifications, codes, and calculations for regulation compliance.
- Effectively interact with those encountered in the course of work with tact and good judgment, while focusing on solution-oriented/added-value results.

QUALIFICATIONS

Experience: Two years of experience performing structural, architectural, or civil engineering building design, review, and inspection work related to building code compliance. Related experience working for a City, County, or State is highly desirable.

Education: Equivalent to a Bachelor's degree from an accredited college with a degree in structural or civil engineering with desired course work in properties of building materials, engineering mathematics, stress and force analysis in wood, concrete, and steel frame structures.

Training: Any recent training such as academic courses and certification programs which are relevant to this job classification.

License: May require the possession of a valid California driver's license and a satisfactory driving record as determined by the City.

Certification: Registration as a Professional Civil Engineer in the State of California is required at the time of appointment. Structural Engineering registration is highly desirable. Possession of an I.C.C. (International Code Council) Plans Examiner Certification is required prior to the completion of the probationary period.

Other Requirements: Willingness and ability to work overtime and on call in case of an emergency; attend meetings, conferences, and seminars during work and non-work hours; and work in all weather conditions, in traffic, and around heavy construction equipment, as assigned.

Special Requirements: Essential duties require the mental and/or physical ability to read fine print on blueprints; converse in person, over the telephone or two-way radio and around the noise of heavy construction equipment and be heard and clearly understood; move across rough terrain and bridge scaffolding; climb into and out of sewer holes and trenches, up 25 foot ladders, and several flights of stairs; use drafting instruments, calculators, and personal computers; and strength to safely lift and carry files and maps weighing up to 50 pounds.

AMERICANS WITH DISABILITIES ACT (ADA)

If you are a qualified individual with a disability as defined by the ADA and you need reasonable accommodation to participate in any of the tests, you must notify Human Resources at the time you submit your application.

The information contained in this announcement is subject to change and does not constitute either an expressed or implied contract.
